

# Powering Progress

The last two years prove what's possible when a core group of elected leaders join us to fight Big Oil and Big Pharma, and deliver what our families need to thrive, like **the freedom to power our communities with clean energy, create good-paying, union jobs, and lower our healthcare costs.**

**YOUR VOTE MATTERED. EVERY HOUSEHOLD IN AMERICA CAN BENEFIT FROM THE INVESTMENTS THE FEDERAL GOVERNMENT HAS MADE THE LAST COUPLE YEARS.**

## Keeping Money In Our Pockets

**Lower Everyday Healthcare Costs!** If you're a senior, insulin is now capped at \$35, and you can get free adult vaccines. In addition, Biden's policies are saving 13 million people **an average of \$800 a year** on health care premiums.

**Homeowners can take advantage of discounts to reduce costs of making their homes more energy efficient.** This includes things like rooftop solar, energy efficient home appliances, and more!

**FIND OUT HOW MUCH YOU CAN SAVE THROUGH THIS SAVINGS CALCULATOR:**

Zip Code

Homeowners Status

Tax Filing

Household Size

### Tax Credits for Home Upgrades

A tax credit reduces your final tax bill, dollar-for-dollar. You pay full price now, but the government pays you back come tax filing season.

### Energy Saving Rebates

Beginning in late 2023, when you buy and install a new appliance, the upfront discount will be taken right off the bill from your retailer or contractor.

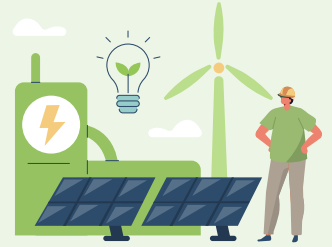

# Creating Millions of Jobs in Indiana!

The Clean Energy Plan has already supported **over 90 new projects** that have translated into **more than 100,000 jobs in the last 6 months alone!**

Whether you live in a suburban, rural, or metropolitan area, have a college degree or not, there's a job (and training) for all kinds of job seekers.

OUR COMMUNITIES WILL BENEFIT FROM  
**9 MILLION JOBS**  
BEING CREATED OVER THE NEXT 10 YEARS.

## Accelerating Our Clean Energy Future

By generating our own renewable and reliable energy here in the U.S., we will stabilize the energy market and increase affordability.
