

Project 2025 Veterans Cuts:

Income Security:

- Eliminates Concurrent Receipt of Retirement Pay and Disability Compensation for all Veterans
(Veterans will not be able to receive both of disability pay and retirement pay. Only one or the other regardless of VA rating or injury).

Veterans Benefits & Services:

- End all enrollment in VA medical Care for Veterans in Priority Groups 7 and 8.
Priority group 7:
Veterans with incomes below the geographic income threshold (GMT) and above a national threshold, but who don't have compensable service-connected disabilities.
Priority group 8
Veterans with incomes above both the national and geographic thresholds, but who don't have compensable service-connected disabilities.
- Narrow Eligibility for Veterans Disability by Excluding Disabilities Unrelated to Military Duties.
- Put a 10-year time Limit on initial compensation for Veterans.

Veterans Programs:

- Cut any program not deemed “conservative”.
- Eliminates community care programs that allows Veterans to see non-VA Doctors.
- Eliminate urban VA locations to include VA Community Based Outreach Clinics (VBOC's).
- Downsize VA hospitals and VA campuses and replace them with clinics.
- Share VA hospitals with private healthcare systems.

Veterans Claims:

- Hire private companies to do medical exams.
- Cut staff for claims and replace them with automated technology.
(This will recreate the backlog of thousands of veterans initiating or inquiring about issues with their claims—Slowing down the time it takes for processing and approval.)

- Eliminate disability coverage for non-service-related issues.
 - This includes no coverage for cancer treatment, car accidents while on orders to and from duty station, any non-service-related disease terminal or not.
- Scaled Back PACT ACT coverage of burn pits, Agent Orange, and exposure to other toxins.
- Rescind all prior administration's authority delegations for HR and administration.
- Seize Political Control of the VA.
- The White House will be involved in staffing and vetting ALL KEY POSITIONS even before formal nominations.
- Sunset accountability and Whistleblower protections
